Portfolio: charlottebilliet.com

I have recently graduated as a full stack developer with experience in front end design and backend development. Having grown up across five countries, I bring adaptability, creativity, and strong collaboration skills to international teams. I am passionate about building scalable web solutions with clean, user centered design.

EXPERIENCE

Content Creator - Leie Auto's,
November 2025 - Present
Created digital content for social media and marketing campaigns, including visuals, captions, and short videos.

Internship - Dirty Roots, Berlin
January 2025 - April 2025
Redesigned and migrated the e-commerce platform from Squarespace to WordPress to improve scalability and long-term maintainability.

Personal Project - A11Y scanner
January 2026
A web accessibility scanner that analyzes websites for compliance with WCAG guidelines, providing detailed reports and suggestions for improvements. I have more personal projects available on my portfolio which is linked above.
